

## SJ Water Filler Pipes

The water tank filler pipe for an SJ series truck is not available as an assembly. This is because the pipe is assembled as the unit is being built to insure proper alignment. Also the installation can vary depending on which side of the vehicle the customer specifies the inlet to be. Below is a list of the the components we normally use.

PART NUMBER	DESCRIPTION	PICTURE
A140080	Brass Swivel Nut for 2.5" Hydrant Hose (includes gasket)	
A140090	2"FNPT Flange Adapter for A140080 Nut	
A190830	Gasket only	
A141179	2"NPT X 36"L Steel Pipe Nipple (inlet pipe)	
A176780	2"NPT X 2" Slip Sch40 PVC	
A176770	2" Sch40 PVC 90° Slip X Slip Elbow	
A236394	2" Sch40 PVC Pipe (per foot)	
A236394-17	2" X 48"L Sch40 PVC Pipe (precut length)	
A236394-18	2" X 54"L Sch40 PVC Pipe (precut length)	
A236394-19	2" X 3"L Sch40 PVC Pipe (precut length)
